Ministerial Circular No. (158) of 2026
Concerning the Allocation of Annual Tariff Rate Quotas for the Relevant Products in Accordance with the Schedule of Commitments of the United Arab Emirates under the Comprehensive Economic Partnership Agreement between the Government of the United Arab Emirates and the Government of Ukraine

The Minister of Foreign Trade,

Having reviewed Federal Decree No. (60) of 2025 ratifying the Comprehensive Economic Partnership Agreement between the Government of the United Arab Emirates and the Government of Ukraine;
Ministerial Circular No. (123) of 2026 concerning the allocation of tariff rate quotas for the relevant products in accordance with the Schedule of Commitments of the United Arab Emirates under the Comprehensive Economic Partnership Agreement between the Government of the United Arab Emirates and the Government of Ukraine;
And based on the submission of the Undersecretary of the Ministry,

Has decided as follows:

Article (1)
Definitions

For the purposes of this Circular, the following words and expressions shall have the meanings assigned to them below, unless the context otherwise requires:
Country: The United Arab Emirates.
Ministry: The Ministry of Foreign Trade.
Authority: The Federal Authority for Identity, Citizenship, Customs and Port Security.
Customs Administration: The competent customs administration in the relevant Emirate.
Agreement: The Comprehensive Economic Partnership Agreement between the Government of the United Arab Emirates and the Government of Ukraine.
Relevant Products: Products subject to tariff rate quotas in accordance with the Schedule of Commitments of the United Arab Emirates annexed to the Agreement.
Tariff Rate Quota (TRQ): The specified quantity of a particular product that may be imported during the prescribed period in order to benefit from the preferential customs treatment provided for under the Agreement.
In-Quota Tariff: The preferential customs treatment applicable to products imported within the limits of the tariff rate quota, in accordance with the Agreement.
Out-of-Quota Tariff: The customs treatment applicable to quantities imported after the tariff rate quota has been exhausted, in accordance with the Agreement.

Article (2)
Scope of Application

The provisions of this Circular shall apply to products subject to tariff rate quotas under the Agreement, in the quantities, at the tariff rates, and during the periods specified in Annex (1) attached to this Circular.

Article (3)
Registration Procedures and Allocation of Tariff Rate Quotas

1. Companies wishing to benefit from the tariff rate quotas shall submit registration applications to the Ministry by email at UKRCEPATRQ@trade.gov.ae, including the data and information specified in Annex (2) to this Circular. Companies that fail, as part of the registration procedures, to fulfil the

requirements for submitting the data specified in that Annex shall not be eligible to import under the tariff rate quota system.

2. An importing company registered pursuant to paragraph (1) of this Article shall submit a separate application to the Ministry for each shipment it wishes to import under the tariff rate quota. The application shall specify the requested quantity and the customs entry point through which the shipment is intended to enter, in accordance with Form No. (3) of this Circular. In the approval issued for each application, the Ministry shall specify the quantity allocated to the shipment and the designated customs entry point, and shall issue a unique reference number linked to that shipment. The same reference number may not be used for more than one shipment or at a customs entry point other than that specified in the approval. The quantity allocated to the shipment or the designated customs entry point may not be changed unless the Ministry has approved the change and updated the reference number before submission of the customs declaration.
3. The Ministry shall review the applications submitted pursuant to paragraph (2) of this Article and allocate quantities in accordance with the available balance of the applicable tariff rate quotas.
4. Approvals to benefit from the tariff rate quota shall be issued separately for each shipment, based on the outcome of the review documented in Annex (3) to this Circular. Each approval shall be valid only for the quantity allocated to the shipment for the relevant month. Allocated quantities that remain unused during that month may not be carried forward to any subsequent period, nor may a claim be made to benefit from them during any subsequent period. Unused quantities shall be returned to the balance available for allocation in accordance with the procedures set out in this Circular.
5. When submitting a customs declaration to the Customs Administration to claim preferential treatment under the tariff rate quota, the importing company shall provide Annex (3), including the Ministry's review outcome for its application. The approval shall be valid and linked to the product, the imported quantity, and the shipment covered by the customs declaration.
6. Before granting preferential treatment, the Customs Administration shall verify the validity of the approval, its reference number, and the designated entry point, and shall confirm that the approval has not previously been used in respect of the same quantity. If any of these conditions is not met, the claim for preferential customs treatment shall be rejected.

Article (4)
Utilisation of Tariff Rate Quotas

1. Imports originating in Ukraine shall benefit from the in-quota tariff, provided that the importer holds a valid preferential certificate of origin issued by the competent authority in Ukraine, in accordance with the rules of origin and the requirements and conditions set out in the Agreement.
2. The tariff rate quota may be utilised only within the quantity specified for each product and during the quota period specified in Annex (1) attached to this Circular.
3. The tariff rate quota shall be allocated on a first-come, first-served basis, according to the order in which applications for individual shipments are submitted to the Ministry, provided that the applications satisfy the requirements for claiming preferential customs treatment. Priority shall be determined by the time at which the application is submitted by email, subject to the available balance of the quota at the time of registration during the relevant period.
4. The submission of an application to benefit from the tariff rate quota in accordance with Article (3) of this Circular shall not confer any acquired right to benefit from the in-quota tariff unless a sufficient quantity remains available under the quota at the time the compliant application is registered with the Ministry, in accordance with the provisions of this Circular.

Article (5)
Quota Management and Balance Monitoring

1. The Ministry shall record, on a monthly basis, the quantities allocated under approvals issued for the utilisation of the tariff rate quota for each shipment separately, and shall provide the Authority with the relevant information for circulation to the competent Customs Administrations, thereby ensuring consistent accounting of allocated quantities across all customs entry points.
2. The Customs Administrations shall record the quantities actually utilised and provide the Authority with the relevant information for circulation to the Ministry no later than the fifth day of the following month. This shall ensure the consolidated accounting of quantities utilised across all customs entry points and prevent the applicable tariff rate quotas from being exceeded or the same quantities from being counted more than once under issued approvals.
3. The Customs Administrations may require the relevant importer to pay the difference in customs duties payable under the out-of-quota tariff for relevant products that benefited from preferential customs treatment under the tariff rate quota, if it is established that the tariff rate quota for the period during which the products were released for free circulation had already been exhausted at the time the claim for preferential customs treatment was made.
4. Unused quantities of the tariff rate quota during a given year shall not be carried forward to the following year. The quantity available for utilisation during each period shall be determined in accordance with the Agreement and the provisions of this Circular.

Article (6)
Publication of Information on Tariff Rate Quotas

The Ministry shall periodically publish, on its website, information on the quantities of the tariff rate quotas utilised and the remaining balances, enabling importers to ascertain the availability of quota during the prescribed period. Such publication shall not replace confirmation of the allocation of a quantity in accordance with the provisions of this Circular.

Article (7)
Entry into Force

This Circular shall enter into force on the date of its issuance.

Dr. Thani bin Ahmed Al Zeyoudi
Minister of Foreign Trade

Issued on: 29 October 2026

Annex No. (1)

Tariff Rate Quotas for the Relevant Products until 31 December 2026
