5. Reduced duties calculated in accordance with paragraph 1 shall be rounded to the first decimal place or, in the case of specific duties, to the second decimal place using common arithmetical principles.

Upon request of a Party, the other Party shall consult with the requesting Party to consider accelerating or broadening the scope of the elimination of customs duties as set out in their Tariff Schedules in Annex 2A (Tariff Schedule of Ukraine) and Annex 2B (Tariff Schedule of the UAE). Following such consultations, a decision by the Joint Committee on the acceleration or the broadening of the scope of the reduction or elimination of a customs duty on a good shall supersede any duty rate or staging category determined pursuant to the respective Party's Schedule included in Annex 2A (Tariff Schedule of Ukraine) and Annex 2B (Tariff Schedule of the UAE).
2. Nothing in this Agreement shall prohibit a Party from unilaterally accelerating or broadening the scope of the elimination of customs duties set out in its Tariff Schedule in Annex 2A (Tariff Schedule of Ukraine) or Annex 2B (Tariff Schedule of the UAE) on

originating goods. Any such unilateral acceleration or broadening of the scope of the elimination of customs duties shall not permanently supersede any duty rate or staging category determined pursuant to its respective Tariff Schedules nor serve to waive that Party's right to impose, at a later time, the duty rate or staging category that is determined for that later time by their respective Tariff Schedules.

Article 2.15: Exports Duties and Charges Having Equivalent Effect

Except as otherwise provided in Annex 2C (Exceptions to Article 2.15 on Export Duties and Charges of Equivalent Effect), each Party may apply duties, taxes or charges having equivalent effect, on exports, in accordance with their rights and obligations under the WTO.

Article 2.16: Administration and Implementation of Tariff-Rate Quotas

1. Each Party shall administer its Tariff Rate Quotas ("TRQs") set out respectively in Annex 2A (Tariff Schedule of Ukraine) and Annex 2B (Tariff Schedule of the UAE) in a manner that is transparent, non-discriminatory, and the least-burdensome to trade.
2. For the purpose of the implementation of paragraph 1, the Party which provides the TRQ according to its Tariff Schedule shall publish, upon the entry into force of the Agreement, a notice that should be made available to the public on the procedures and methodologies for the administration of the TRQ.

Article 2.17: Subcommittee on Trade in Goods and Rules of Origin

1. The Parties hereby establish a Subcommittee on Trade in Goods and Rules of Origin, comprising representatives of each Party.
2. The Subcommittee shall meet upon request of a Party or the Joint Committee to consider any matter arising under this Chapter.
3. The Subcommittee's functions shall include, *inter alia*:
 - (a) monitoring the implementation and administration of this Chapter;
 - (b) promoting trade in goods between the Parties, including through consultations on broadening and accelerating the reduction or elimination of customs duties under this Agreement and other issues as appropriate;
 - (c) addressing barriers to trade in goods between the Parties, especially those related to the application of non-tariff measures, and, when appropriate, referring such matters to the Joint Committee for its consideration;

- (d) recommending to the Joint Committee any amendments to this Chapter, Chapter 3 (Rules of Origin), or Chapter 4 (Customs Procedures and Trade Facilitation);
- (f) considering any other matter referred to it by a Party relating to the implementation and administration by the Parties of this Chapter, Chapter 3 (Rules of Origin), or Chapter 4 (Customs Procedures and Trade Facilitation);
- (g) exchanging data on trade in goods between the Parties on periodical basis starting one year after the entry into force of this Agreement; and
- (h) considering any other matter arising under this Chapter, Chapter 3 (Rules of Origin), or Chapter 4 (Customs Procedures and Trade Facilitation) as may be agreed by the Parties.

4. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rules in column 3 or 4 apply only to the part of that sub-heading, heading or chapter as described in column 2.
5. Where a product specific rule requires that the materials used undergo a change in tariff classification or a specific manufacturing or processing operation, the rules shall apply only to non-originating materials.
6. Where a specific rule of origin is defined using the criterion of a change in tariff classification, the rule will be considered to be met only if each of the non-originating materials used in the production of the good has undergone the change in tariff classification.

7. For the purposes of column 3 this Annex:

- (a) **WO** or **wholly obtained** means product must satisfy the wholly obtained criteria as per Article 3.3;
- (b) **CC** means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the two-digit level;
- (c) **CTC** means change in tariff classification;
- (d) **CTH** means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the four-digit level;
- (e) **CTSH** means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the six-digit level;
- (f) **SO** means specific operations or a defined technical requirements detailed therein;
- (g) **N/A** means no rules are applicable.

8. Alternative Rules to Section VI and VII (Chapters 28-38).

In addition to the rules specified in Article 3.4.1, the following operations will be considered as origin conferring operations for goods classifiable under Chapters 28-38.

Rule 1: Chemical Reaction

A good that results from a chemical reaction in the territory of one or both of the Parties shall be treated as an originating good.

Note: For purposes of this Section, a “chemical reaction” is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of determining whether a good is originating:

- (a) dissolution in water or in another solvent;
- (b) the elimination of solvents, including solvent water; or
- (c) the addition or elimination of water of crystallization.

Rule 2: Purification

A good that is subject to purification shall be treated as an originating good provided that the purification occurs in the territory of one or both of the Parties and results in the following:

D.K.

- (a) the elimination of not less than 80 percent of the impurities; or
- (b) the reduction or elimination of impurities resulting in a good suitable:
 - (i) as a pharmaceutical, medicinal, cosmetic, veterinary, or food grade substance;
 - (ii) as a chemical product or reagent for analytical, diagnostic, or laboratory uses;
 - (iii) as an element or component for use in micro-elements;
 - (iv) for specialized optical uses;
 - (v) for non-toxic uses for health and safety;
 - (vi) for biotechnical use;
 - (vii) as a carrier used in a separation process; or
 - (viii) for nuclear grade uses.

Rule 3: Mixtures and Blends

A good shall be treated as an originating good if the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications, resulting in the production of a good having different essential physical or chemical characteristics that are relevant to the purposes or uses of the good and are different from the input materials, occurs in the territory of one or both of the Parties.

Rule 4: Change in Particle Size

A good shall be treated as an originating good if the deliberate and controlled modification in particle size of the good, including micronizing by dissolving a polymer and subsequent precipitation, other than by merely crushing or pressing, resulting in a good having a defined particle size, defined particle size distribution, or defined surface area, which is relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input materials, occurs in the territory of one or both of the Parties.

Rule 5: Standards Materials

A good shall be treated as an originating good if the production of standards materials occurs in the territory of one or both of the Parties.

For the purposes of this rule "standards materials" (including standard solutions) are preparations suitable for analytical, calibrating, or referencing uses, having precise degrees of purity or proportions that are certified by the manufacturer.

Rule 6: Isomer Separation

A good shall be treated as an originating good if the isolation or separation of isomers from mixtures of isomers occurs in the territory of one or both of the Parties.

Rule 7: Separation Prohibition

A good that undergoes a change from one classification to another in the territory of one or more of the Parties as a result of the separation of one or more materials from a man-made mixture shall not be treated as an originating good unless the isolated material underwent a chemical reaction in the territory of one or both of the Parties.

Rule 8: Special Tolerance

For goods classified under Chapters 28-38, material of the same heading as the product may be used, provided that their total value does not exceed 20% of the Ex works price of the product.

Rule 9: Textile Rule

For special conditions relating to products made a mixture of textile materials:

9.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 % or less of the total weight of all the basic textile materials used (see also paragraph 9.3 and 9.4).

9.2. However, the tolerance mentioned in paragraph 9.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- (a) silk,
- (b) wool,
- (c) coarse animal hair,
- (d) fine animal hair,
- (e) horsehair,
- (f) cotton,
- (g) paper-making materials and paper,
- (h) flax,
- (i) true hemp,

- (j) jute and other textile bast fibres,
- (k) sisal and other textile fibres of the genus *Agave*,
- (l) coconut, abaca, ramie and other vegetable textile fibres,
- (m) synthetic man-made filaments,
- (n) artificial man-made filaments,
- (o) current-conducting filaments,
- (p) synthetic man-made staple fibres of polypropylene,
- (q) synthetic man-made staple fibres of polyester,
- (r) synthetic man-made staple fibres of polyamide,
- (s) synthetic man-made staple fibres of polyacrylonitrile,
- (t) synthetic man-made staple fibres of polyimide,
- (u) synthetic man-made staple fibres of polytetrafluoroethylene,
- (v) synthetic man-made staple fibres of poly(phenylene sulphide),
- (w) synthetic man-made staple fibres of poly(vinyl chloride),
- (x) other synthetic man-made staple fibres,
- (y) artificial man-made staple fibres of viscose,
- (z) other artificial man-made staple fibres,
- (aa) yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- (bb) products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- (cc) other products of heading 5605.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which

do not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used, provided that their total weight does not exceed 10 % of the weight of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin-rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used, provided that their total weight does not exceed 10 % of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is a only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures. Example: If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

9.3. In the case of products incorporating 'yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped', this tolerance is 20 % in respect of this yarn.

9.4. In the case of products incorporating 'strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film', this tolerance is 30 % in respect of this strip.

9.5. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.

9.6 Without prejudice to paragraph 9.7, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

9.7. Where a percentage rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the included materials that do not originate in the Party's territory.

The Party maintaining the measure beyond a two-year period shall progressively liberalize it at annual intervals during the period of application.

4. Neither Party shall apply a bilateral safeguard measure more than once against the same good.

5. Upon the termination of the bilateral safeguard measure, the rate of customs duty shall be the rate which would have been in effect if the measure had not been applied.

6. The bilateral safeguard mechanism shall be terminated five years after the date on which the elimination or reduction of the customs duties is completed in accordance with the Party's Schedule of Tariff Commitments in Annex 2A (Tariff Schedule of Ukraine) and Annex 2B (Tariff Schedule of the UAE), unless the Joint Committee decides to maintain the possibility to take bilateral safeguard measures between the Parties for a period of time that will be indicated in the decision of the Joint Committee.

7. Documents submitted by the competent investigating authority of a Party to the competent investigating authority of the other Party may be in English.

Article 7.4: Provisional Bilateral Safeguard Measures

1. In critical circumstances, where delay in the introduction of a bilateral safeguard measure in accordance with Article 7.2 would cause damage which would be difficult to repair, a Party may take a provisional bilateral safeguard measure pursuant to a preliminary determination that there is clear evidence that increased imports as to cause or threaten to cause serious injury to the domestic industry.

2. The Party intending to take a provisional bilateral safeguard measure shall immediately notify the other Party. This notification shall contain all relevant information, including preliminary evidence of serious injury or threat thereof caused by increased imports, a precise description of the product involved and the proposed measure, as well as the proposed date of introduction and the expected duration.

3. Any provisional bilateral safeguard measure shall be terminated within 200 days at the latest. The period of application of any such provisional bilateral safeguard measure shall be counted as part of the duration of the bilateral safeguard measure set out in Article 7.3.2 and any extension thereof. Any tariff increases shall be promptly refunded if the investigation described in Article 7.2.2 does not result in a finding that the conditions of Article 7.2.1 are met.

Article 7.5: Compensation

1. No later than 30 days after it applies a bilateral safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the bilateral safeguard measure. The applying Party shall provide such compensation as the Parties mutually agree.

2. If the Parties are unable to agree on compensation within 30 days after consultations begin, the Party against whose originating product the measure is applied may suspend the application of concessions with respect to originating product of the applying Party that have

trade effects substantially equivalent to the bilateral safeguard measure. The Party exercising the right of suspension may suspend the application of concessions only for the minimum period necessary to achieve the substantially equivalent effects.

3. A Party against whose product the bilateral safeguard measure is applied shall notify the Party applying the bilateral safeguard measure in writing at least 30 days before it suspends concessions in accordance with paragraph 2.

4. The right of suspension referred in paragraph 2 shall not be exercised for the first 24 months during which a bilateral safeguard measure is in effect, provided that the bilateral safeguard measure has been applied as a result of an absolute increase in imports and conforms to the provisions of this Chapter.

5. The applying Party's obligation to provide compensation under paragraph 1 and the other Party's right to suspend concessions under paragraph 2 shall terminate on the date the bilateral safeguard measure terminates.

Article 7.6: Imposition of Global Safeguard Measures

1. Each Party retains its rights and obligations under Article XIX of the GATT 1994 and the Agreement on Safeguards.

2. Neither Party shall apply, with respect to the same good, at the same time:

(a) a bilateral safeguard measure; and

(b) a measure under Article XIX of the GATT 1994 and the Agreement on Safeguards.

3. At the request of the other Party and/or provided that it has a substantial interest, the Party intending to take a safeguard measure shall provide immediately written notification of all pertinent information on the initiation of the safeguard investigation, including the provisional findings and the final findings of the investigation, as well as offer the possibility for consultations to the other Party.

4. For the purpose of this Article, it is considered that a Party has a substantial interest when it is among the five largest suppliers of the imported goods during the most recent one-year period preceding the initiation of the safeguard investigation, measured in terms of absolute volume.

5. A Party taking a safeguard measure shall exclude the other Party as long as its share of imports of the product concerned in the importing Party does not exceed three per cent of total imports of the concerned product.

6. Neither Party shall have recourse to the dispute settlement procedures in Chapter 15 (Dispute Settlement) in respect of this Article.

1. Except as otherwise provided for in this Article, each Party retains its rights and obligations under Article VI of the GATT 1994 the Anti-Dumping Agreement and the SCM Agreement.
2. The Parties agree that antidumping and countervailing measures should be applied in full compliance with Article VI of the GATT 1994, the Anti-Dumping Agreement and the SCM Agreement and should be based on a fair and transparent system. In furtherance of this, as soon as practically possible after any imposition of provisional measures and before the final decision is taken, the Parties shall ensure full and meaningful disclosure of all essential facts and considerations which form the basis for the decision to apply definitive measures without prejudice to Article 6.5 of the Anti-Dumping Agreement or Article 12.4 of the SCM Agreement. Disclosures shall be made in writing and allow interested parties at least 10 days to respond with comments.
3. Interested parties should be granted the right to express their views during anti-dumping and anti-subsidy investigations in accordance with the conditions of each Party's internal legislation.
4. Prior to the imposition of definitive measures, the exporting Party within 10 days from receipt of the disclosure as specified in paragraph 2, may request consultations with a view to seeking a solution acceptable to the Parties. If the Parties are unable to reach a mutually acceptable solution within 25 days of the disclosure being sent, the importing Party may apply the appropriate definitive measures.
5. Should a Party decide to impose a provisional or definitive anti-dumping or countervailing duty, the amount of such duty shall not exceed the margin of dumping or countervailable subsidies, but it should be less than the margin if such a lesser duty is in accordance with the Party's internal legislation and would be adequate to remove the injury to the domestic industry.
6. The Party whose goods are subject to anti-dumping or countervailing measures imposed by the other Party has the right to request consultations in order to discuss the impact of these measures on bilateral trade.
7. Neither Party shall have recourse to the dispute settlement procedures in Chapter 15 (Dispute Settlement) in respect of this Article.

- (c) undertakings relating to additional commitments;
- (d) where appropriate, the time-frame for implementation of such commitments; and
- (e) the date of entry into force of such commitments.

With respect to market access through the modes of supply identified in the definition of “trade in services” contained in Article 9.1, each Party shall accord services and service suppliers of the other Party treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule of Specific Commitments.⁴

⁴ If a Party undertakes a market access commitment in relation to the supply of a service through the mode of supply referred to in the definition of “trade in services” contained in Article 9.1 (v)(i) and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital. If a Party undertakes a market access commitment in relation to the supply of a service through the mode of supply referred to in the definition of “trade in services” contained in Article 9.1 (v)(iii), it is thereby committed to allow related transfers of capital into its territory.

⁵ Subparagraph 2 (c) does not cover measures of a Party which limit inputs for the supply of services.

0.4.

Article 9.6: National Treatment

1. With respect to the services sectors inscribed in its Schedule of Specific Commitments, and subject to any conditions and qualifications set out therein, each Party shall accord to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers.⁶
2. A Party may meet the requirement of paragraph 1 by according to services and service suppliers of the other Party either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.
3. Formally identical or formally different treatment by a Party shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of that Party compared to like services or service suppliers of the other Party.

Article 9.7: Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 9.5 or 9.6, including those regarding qualification, standards or licensing matters. Such commitments shall be inscribed in that Party's Schedule of Specific Commitments.

Article 9.8: Modification of Schedules

Upon written request by a Party, the Parties shall hold consultations to consider any modification or withdrawal of a specific commitment in the requesting Party's Schedule of Specific Commitments. The consultations shall be held within three months after the requesting Party made its request. In the consultations, the Parties shall aim to ensure that a general level of mutually advantageous commitments no less favourable to trade than that provided for in the Schedule of Specific Commitments prior to such consultations is maintained. Modifications of Schedules are subject to any procedures adopted by the Joint Committee established in Chapter 17 (Administration of the Agreement).

⁶ Specific commitments assumed under this Article shall not be construed to require either Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

Article 9.9: Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2.

(a) Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

(b) The provisions of subparagraph (a) shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

3. Where authorisation is required for the supply of a service on which a specific commitment under this Agreement has been made, the competent authorities of each Party shall:

(a) within a reasonable period of time after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application;

(b) in the case of an incomplete application, at the request of the applicant, identify all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;

(c) at the request of the applicant, provide without undue delay information concerning the status of the application; and

(d) if an application is terminated or denied, to the extent possible, inform the applicant in writing and without delay of the reasons for such action. The applicant will have the possibility of resubmitting, at its discretion, a new application.

4. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to trade in services, in sectors where specific commitments are undertaken, the Parties shall aim to ensure that such requirements are:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

- (b) not more burdensome than necessary to ensure the quality of the service; and
- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

5. In determining whether a Party is in conformity with the obligation under paragraph 4, account shall be taken of international standards of relevant international organisations applied by that Party.⁷

6. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of the other Party.

7. The Parties shall jointly review the results of the negotiations on disciplines on domestic regulation, pursuant to paragraph 4 of Article VI of the GATS, with a view of incorporating them into this Chapter.

Such recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement between the Parties or their relevant competent bodies, or may be accorded autonomously.

2. Where a Party recognises, by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, that Party shall afford the other Party adequate opportunity to negotiate its accession to such an agreement or arrangement, whether existing or future, or to negotiate a comparable agreement or arrangement with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that the education, experience, licences or certifications obtained or requirements met in that other Party's territory should also be recognised.

3. A Party shall not accord recognition in a manner which would constitute a means of discrimination between the other Party and non-Parties in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.

⁷ The term "relevant international organisations" refers to international bodies whose membership is open to the relevant bodies of the Parties to this Agreement.

4. The Parties agree to encourage, where possible, the relevant bodies in their respective territories responsible for issuance and recognition of professional and vocational qualifications to:

- (a) strengthen cooperation and to explore possibilities for mutual recognition of respective professional and vocational qualifications; and
- (b) pursue mutually acceptable standards and criteria for licensing and certification with respect to service sectors of mutual importance to the Parties.

Article 9.11: Payments and Transfers

1. Except under the circumstances envisaged in Article 16.4 (Balance of Payments Difficulties), a Party shall not apply restrictions on international transfers and payments for current transactions relating to its specific commitments.

2. Nothing in this Chapter shall affect the rights and obligations of the Parties as members of the International Monetary Fund under the Articles of Agreement of the Fund, including the use of exchange actions which are in conformity with the Articles of Agreement, provided that a Party shall not impose restrictions on any capital transactions inconsistently with its specific commitments regarding such transactions, except under Article 16.4 (Balance of Payments Difficulties) or at the request of the International Monetary Fund.

Article 9.12: Monopolies and Exclusive Service Suppliers

The rights and obligations of the Parties in respect of monopolies and exclusive service suppliers shall be governed by paragraphs 1, 2, and 5 of Article VIII of the GATS, which are hereby incorporated into and made part of this Chapter.

Article 9.14: Denial of Benefits

A Party may deny the benefits of this Agreement to a service supplier that is a juridical person, if persons of a non-Party own or control that juridical person and the denying Party:

- (a) does not maintain diplomatic relations with the non-Party;

- (b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the juridical person or that would be violated or circumvented if the benefits of this Agreement were accorded to the juridical person; or
- (c) in the case of the supply of a maritime transport service, if it establishes that the service is supplied:
 - (i) by a vessel registered under the laws of a non-Party; and
 - (ii) by a person which operates and/or uses the vessel in whole or in part but which is of a non-Party.

Article 9.15: Review

NOTE TO THE SCHEDULE

Where road, rail, inland waterways and related auxiliary services are not otherwise fully covered in this schedule, a multimodal transport operator (as defined below in paragraph 3) shall have the ability to rent or lease trucks, railway carriages or barges, and related equipment, for the purpose of inland forwarding of cargoes, or have access to, and use of, these forms of multimodal activities on reasonable and non-discriminatory terms and conditions for the purpose of carrying out multimodal transport operations. "Reasonable and non-discriminatory terms and conditions" means, for the purpose of multimodal transport operations the ability of the multimodal transport operator to arrange for the conveyance of its merchandise on a timely basis, including priority over other merchandise which has entered the port at a later date.

DEFINITIONS OF MARITIME AUXILIARY SERVICES

1. Without prejudice to the scope of activities which may be considered as "cabotage" under the relevant national legislation, this schedule does not include "maritime cabotage services", which are assumed to cover transportation of passengers or goods between a port located in Ukraine and another port located in Ukraine and traffic originating and terminating in the same port located in Ukraine provided that this traffic remains within Ukraine's territorial waters.

2. "Other forms of commercial presence for the supply of international maritime transport services" means the ability for international maritime transport service suppliers of another Party to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. (This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:

- (a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
- (b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated services;
- (c) the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
- (d) the provision of business information by any means, including computerised information systems and electronic data interchange (subject to the provisions of the annex on telecommunications);

- (e) the setting up of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency; and
 - (f) acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.
3. “Multimodal transport operator” means the person on whose behalf the bill of lading/multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.
4. “Maritime cargo handling services” means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organised independently of the stevedoring or terminal operator companies. The activities covered include the organisation and supervision of:
- the loading/discharging of cargo to/from a ship;
 - the lashing/unlashing of cargo; and
 - the reception/delivery and safekeeping of cargoes before shipment or after discharge.
5. “Customs clearance services” (alternatively “customs house brokers' services”) means activities consisting in carrying out on behalf of another party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service provider or a usual complement of its main activity.
6. “Container station and depot services” means activities consisting in storing containers, whether in port areas or inland, with a view to their stuffing/stripping, repairing and making them available for shipments.
7. “Maritime agency services” means activities consisting in representing, within a given geographic area, as an agent the business interests of one or more shipping lines or shipping companies, for the following purposes:
- marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies, acquisition and resale of the necessary related services, preparation of documentation, and provision of business information; and
 - acting on behalf of the companies organising the call of the ship or taking over cargoes when required.
8. “Freight forwarding services” means the activity consisting of organising and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information.

REFERENCE PAPER

Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

Definitions

Users mean service consumers and service suppliers.

Essential facilities mean facilities of a public telecommunications transport network or service that:

- (a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- (b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- (a) control over essential facilities; or
- (b) use of its position in the market.

1. Competitive safeguards

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

- (a) engaging in anti-competitive cross-subsidization;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided:

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
- (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

- (a) at any time; or
- (b) after a reasonable period of time which has been made publicly known

to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. Universal service

Each Party has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Party.

4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

- (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
- (b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

ANNEX 9C

TELECOMMUNICATIONS SERVICES

Article 1: Scope and Definitions

1. This Annex applies to measures by the Parties affecting trade in telecommunications services¹. It shall not apply to measures relating to broadcasting or to cable distribution of radio or television programming.²

2. Nothing in this Annex shall be construed to:

- (a) require a Party to compel any enterprise to establish, construct, acquire, lease, operate, or provide telecommunications networks or services where such networks or services are not offered to the public generally;
- (b) require a Party to compel any enterprise exclusively engaged in the broadcast or cable distribution of radio or television programming to make available its broadcast or cable facilities as a public telecommunications network; or
- (c) prevent a Party from prohibiting persons operating private networks from using their networks to supply public telecommunications networks or services to third parties.

3. For the purpose of this Annex:

regulatory authority means a body or bodies entrusted with any of the regulatory tasks assigned in relation to the issues mentioned in this Annex;

essential facilities means facilities of a public telecommunications network or service that:

- (a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- (b) cannot feasibly be economically or technically substituted in order to supply a service;

major supplier means a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- (a) control over essential facilities; or
- (b) the use of its position in the market.

¹ "Trade in telecommunications services" shall be understood in accordance with the definitions contained in Article 9.1, and includes measures in respect of the access to and use of public telecommunications networks and services.

² "Broadcasting" shall be defined as provided for in the relevant domestic law of each Party.

public telecommunications network means the public telecommunications infrastructure which permits telecommunications between and among defined network termination points;

public telecommunications service means any telecommunications service required, explicitly or in effect, by a Party to be offered to the public generally or a parts thereof. Such services may include, inter alia, telegraph, telephone, telex, and data transmission typically involving the real-time transmission of customer-supplied information between two or more points without any end-to-end change in the form of the customer's information;

reference interconnection offer means an interconnection offer extended by a major supplier sufficiently detailed to enable a supplier of a public telecommunications service to know the rates and conditions to obtain interconnection;

telecommunications means the transmission and reception of signals (such as symbols, sound, images, written text and any combination thereof) by any electromagnetic means. The sector of telecommunications services does not cover the economic activity consisting of broadcasting which requires telecommunications services for its transport.

Article 2: Competitive Safeguards

1. Each Party shall maintain appropriate measures for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.
2. The anti-competitive practices referred to in paragraph 1 shall include, in particular:
 - (a) engaging in anti-competitive cross-subsidisation;
 - (b) using information obtained from competitors with anti-competitive results; and
 - (c) not making available to other service suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to supply services.

Article 3: Interconnection

1. This Article applies to linking with suppliers providing public telecommunications networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services supplied by another supplier.
2. Any supplier with the right to provide telecommunications services shall have the rights of interconnection with other providers of publicly available telecommunications networks and services. Interconnection rates should in principle be based on cost or otherwise regulated rates for the suppliers concerned.

3. An interconnection point in the network shall be subject to negotiations between service suppliers and to technical feasibility. In the event that the service suppliers encounter difficulties with said negotiations, the competent authority shall be able to intervene and rule, in accordance with the Parties' relevant regulations. Such negotiations shall ensure that interconnection agreements are concluded:

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided by the major supplier for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates; and
- (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the services to be supplied.

4. Each Party shall ensure that suppliers of public telecommunications networks or services in its territory take appropriate steps to protect, *inter alia*:

- (a) the privacy of individuals in relation to the processing and dissemination of personal data;
- (b) the confidentiality of individual records; and
- (c) the confidentiality of commercially sensitive information of, or relating to, suppliers and end-users of telecommunications services. Data and information obtained by a telecommunications service supplier shall only be used for the purpose of providing those services.

5. Nothing in this Annex restricts the right of a Party to protect personal data, personal privacy and the confidentiality of individual records and accounts, and other information protected under law.

Article 4: Universal Service

1. Each Party has the right to define the kind of universal service obligation it wishes to have.

2. Measures by the Parties governing universal service shall be transparent, objective and non-discriminatory. They shall also be neutral with respect to competition and not be more burdensome than necessary for the kind of universal service defined by the Party.

Article 5: Licensing Procedure

1. Where a licence (permit) or a concession is required for the supply of a telecommunications service, the competent authority of a Party shall make the following publicly available:

- (a) the terms and conditions for such a licence or a concession; and
- (b) the period of time normally required to reach a decision concerning an application for a licence or a concession.

2. Where a licence or a concession is required for the supply of a telecommunications service, and if the applicable conditions are fulfilled, the competent authority of a Party shall grant the applicant a licence or a concession within a reasonable period of time after the submission of its application, that is considered complete under that law of a Party.

3. The competent authority of a Party shall notify the applicant of the outcome of its application promptly after a decision has been taken. In case a decision is taken to deny an application for a licence or a concession, the competent authority of a Party shall make known to the applicant, upon request, the reason for the denial.

Article 6: Independent Regulatory Authority

1. Each Party's regulatory authority for telecommunications services shall be separate from, and not accountable to, any supplier of basic telecommunications services.

2. Each Party shall ensure that the decisions of, and the procedures used by, its regulatory authority are impartial with respect to all market participants.

Article 7: Scarce Resources

1. Each Party shall ensure that its procedures for the allocation and use of scarce telecommunications resources, including frequencies and numbers, are carried out in an objective, timely, transparent, and non-discriminatory manner. Each Party shall make publicly available the current state of allocated frequency bands, but detailed identification of frequencies allocated for specific government uses shall not be required.

2. When assigning a spectrum for non-government radio-electric telecommunications services, each Party shall endeavour to rely as a rule on market-based approaches, taking full account of public interests.

Article 8: Resolution of Telecommunications Disputes

Each Party shall ensure that:

- (a) suppliers may submit a recourse to its regulatory authority or other relevant body to resolve disputes regarding major suppliers;
- (b) a supplier that has requested interconnection with a major supplier, has recourse at any time or after a reasonable publicly specified period of time to its regulatory authority to resolve disputes regarding appropriate terms, conditions and rates for interconnection with that major supplier within a reasonable timeframe; and
- (c) suppliers affected by the decisions of its regulatory authority have recourse to appeal to an independent administrative body and/or a court in accordance with the law of a Party.

Article 9: Transparency

Each Party shall ensure that relevant information on conditions affecting access to and use of public telecommunications networks and services is available, including:

- (a) tariffs and other terms and conditions of service;
- (b) specifications of technical interfaces with such networks and services;
- (c) information on bodies responsible for the preparation and adoption of standards affecting such access and use;
- (d) conditions applying to attachment of terminal or other equipment to the public telecommunications network; and
- (e) notifications, permits, registration or licensing requirements, if any.

Article 10: Flexibility in the Choice of Technologies

1. Neither Party may prevent suppliers of public telecommunications services from having the flexibility to choose the technologies that they use to supply their services, including commercial mobile wireless services, subject to requirements necessary to satisfy legitimate public policy interests, provided that any measure restricting such choice is not prepared, adopted, or applied in a manner that creates unnecessary obstacles to trade.

2. For greater certainty, nothing in this Annex shall be construed to prevent a telecommunications regulatory body from requiring a proper licence or other authorisation to supply each public telecommunications service.

Each Party shall give effect to the provisions of this Chapter. A Party may, but shall not be obliged to, provide more extensive protection for, or enforcement of, intellectual property rights under its law than is required by this Chapter, provided that such protection or enforcement does not contravene the provisions of this Chapter. Article 11.10: Exhaustion of Intellectual Property Rights

Without prejudice to any provisions addressing the exhaustion of intellectual property rights in international agreements to which a Party is a member, nothing in this Agreement prevents a Party from determining whether or under what conditions the exhaustion of intellectual property rights applies under its legal system. A Party may establish its own regime of exhaustion of intellectual property rights, taking into account the provisions of the TRIPS Agreement.

Section B: Cooperation

Article 11.11: Cooperation Activities and Initiatives

A Party may require a concise and accurate description, or graphical representation, or both, as applicable, of the trademark.

Article 11.14: Use of Identical or Similar Signs

Each Party shall provide that the owner of a registered trademark has the exclusive right to prevent third parties that do not have the owner's consent from using in the course of trade identical or similar signs for goods or services which are identical or similar to those in respect of which the trademark is registered where such use would result in a likelihood of confusion. In case of the use of an identical sign for identical goods or services, a likelihood of confusion shall be presumed.

Article 11.15: Collective and Certification Marks

Each Party shall provide that trademarks may include collective marks and certification marks. A Party is not obligated to treat certification marks as a separate category in its law, provided that those marks are protected. Each Party may provide that signs that may serve as geographical indications are capable of protection under its trademark system.¹

2. Article 6 bis of the Paris Convention shall apply, *mutatis mutandis*, to goods or services that are not similar to those in respect of which a trademark is registered provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the registered trademark, and provided that the interests of the owner of the trademark are likely to be damaged by such use.
3. Each Party recognises the importance of the Joint Recommendation Concerning Provisions on the Protection of Well-Known Marks as adopted by the Assembly of the Paris Union for the Protection of Industrial Property and the General Assembly of WIPO at the Thirty-Fourth Series of Meetings of the Assemblies of the Member States of WIPO 20-29 September, 1999.
4. Each Party shall provide for appropriate measures to refuse the application or cancel the registration and prohibit the use of a trademark that is identical or similar to a well-known trademark², for identical or similar goods or services, if the use of that trademark is likely to cause confusion with the prior well-known trademark. A Party may also provide for such measures including in cases in which the subsequent trademark is likely to deceive.

¹ Consistent with the definition of a geographical indication in Article 11.1, any sign or combination of signs shall be eligible for protection under one or more of the legal means for protecting geographical indications, or a combination of such means.

² The Parties understand that a well-known trademark is one that was already well-known before, as determined by a Party, the application for, registration of or use of the first-mentioned trademark.

Each Party shall provide that:

- (a) registrations and publications of applications indicate goods and services by their names, grouped according to the classes established by the Nice Classification³; and

³ A Party that relies on translations of the Nice Classification shall follow updated versions of the Nice Classification to the extent that official translations have been issued and published.

- (b) goods or services may not be considered as being similar to each other on the ground that, in any registration or publication, they are classified in the same class of the Nice Classification. Conversely, each Party shall provide that goods or services may not be considered as being dissimilar from each other on the ground that, in any registration or publication, they are classified in different classes of the Nice Classification.

Section E: Geographical Indications

Article 11.25: Recognition of Geographical Indications

1. Geographical indication means an indication that identifies a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good is essentially attributable to its geographical origin.
2. The Parties recognise that geographical indications may be protected through a trademark or sui generis system or other legal means.

Article 11.26: Administrative Procedures for the Protection of Geographical Indications

If a Party provides administrative procedures for the protection or recognition of geographical indications, whether through a trademark or a sui generis system, that Party shall with respect to applications for that protection or petitions ensure that its laws and regulations governing the filing of those applications or petitions are readily available to the public and clearly set out the procedures for these actions.

Section F: Patents and Industrial Designs

Article 11.28: Grace Period

1. Each Party shall disregard information contained in public disclosure of an invention related to an application to register a patent⁵ if the public disclosure:

- (a) was made by the inventor, applicant or a person that obtained the information from the inventor or applicant inside or outside the territory of each Party; and
- (b) occurred prior to the date of filing of the application or priority data during the period determined by the legislation of each Party.

2. Each Party shall disregard information contained in public disclosure of a design related to an application to register an industrial design if the public disclosure:

- (a) was made by the designer, applicant or a person that obtained the information from the designer or applicant inside or outside the territory of each Party; and
- (b) occurred prior to the date of filing of the application or priority data during the period determined by the legislation of each Party.

Article 11.29: Procedural Aspects of Examination, Opposition and Invalidation of Certain Registered Patent and Industrial Design

Each Party shall provide a system for the examination and registration of patents or industrial designs which includes among other things:

- (a) communicating to the applicant in writing, which may be provided by electronic means, the reasons for any refusal to register patent or industrial design;

2. Each Party shall provide a right holder of patent or industrial design with opportunities to make amendments or corrections after registration provided that such amendments or corrections do not change or expand the scope of the patent or industrial design right as a whole.⁶

Article 11.31: Industrial Design Protection

1. The Parties shall ensure that requirements for securing or enforcing registered industrial design protection do not unreasonably impair the opportunity to obtain or enforce such protection.
2. The duration of protection available for registered industrial designs shall amount to at least 20 years from the date of filing.

Article 11.32: Exceptions

A Party may provide limited exceptions to the exclusive rights conferred by a patent or an industrial design, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent or an industrial design and do not unreasonably prejudice the legitimate interests of the right holder, taking account of the legitimate interests of third parties.

Section G: Protection of Undisclosed Test or Other Data

⁶ It is understood that the amendments or corrections which do not change or expand the scope of the right means that the scope of the patent or industrial design right stays same as before or is reduced.

Article 11.33: Protection of Undisclosed Test or Other Data for Pharmaceutical Products

1. If a Party requires, as a condition for granting marketing approval for a new pharmaceutical product, the submission of undisclosed test or other data concerning either or both the safety and efficacy of the product, that Party shall not permit third persons, without the consent of the person that previously submitted such information, to market the same or a similar⁷ product on the basis of:

- (b) the marketing approval granted to the person that submitted such information, for at least five years from the date of marketing approval of the new pharmaceutical product in the territory of the Party.

2. A Party may adopt or maintain a system other than judicial proceedings that precludes, based upon patent information submitted to the regulatory authority by a patent holder or the applicant for marketing approval, the issuance of marketing approval to any third person seeking to market a pharmaceutical product subject to a patent claiming that product, unless by consent or acquiescence of the patent holder, subject to its domestic laws and regulations.

3. Notwithstanding paragraph 1, a Party may take measures to protect public health in accordance with:

- (a) the Doha Declaration;
- (b) any waiver of any provision of the TRIPS Agreement granted by WTO Members in accordance with the WTO Agreement to implement the Doha Declaration and that is in force between the Parties; or

4. For the purposes of paragraph 1, a new pharmaceutical product means a pharmaceutical product that contains an active ingredient for which no other pharmaceutical product containing the same active ingredient has previously obtained marketing approval in the country.

Section H: Copyright and Related Rights

Article 11.34: Definitions

⁷ For greater certainty, for the purposes of this Section, a pharmaceutical product is "similar" to a previously approved pharmaceutical product if the marketing approval, or, in the alternative, the applicant's request for such approval, of that similar pharmaceutical product is based upon the undisclosed test or other data concerning the safety and efficacy of the previously approved pharmaceutical product, or the prior approval of that previously approved product.

For the purposes of Article 11.35 and Article 11.37 through Article 11.44, the following definitions shall apply with respect to performers and producers of phonograms:

- (a) **broadcasting** means the transmission by wireless means for public reception of sounds or of images and sounds or of representations thereof; such transmission by satellite is also "broadcasting"; transmission of encrypted signals is "broadcasting" if the means for decrypting are provided to the public by the broadcasting organisation or with its consent;
- (b) **communication to the public of a performance or a phonogram means the transmission to the public by any medium**, other than by broadcasting, of sounds of a performance or sounds or representations of sounds fixed in a phonogram;
- (c) **fixation** means the embodiment of sounds, or of representations thereof, from which they can be perceived, reproduced, or communicated through a device;
- (d) **performers** mean actors, singers, musicians, dancers, and other persons who act, sing, deliver, declaim, play in, interpret, or otherwise perform literary or artistic works or expressions of folklore;
- (e) **performance** means a performance fixed in a phonogram unless otherwise specified;
- (f) **phonogram** means the fixation of sounds of a performance or of other sounds, or of a representation of sounds, other than in the form of a fixation incorporated in a cinematographic or other audio-visual work;
- (g) **producer of a phonogram** means a person that takes the initiative and has the responsibility for the first fixation of sounds of a performance or other sounds, or representations of sounds;
- (h) **publication of a performance or phonogram** means the offering of copies of the performance or the phonogram to the public, with the consent of the right holder, and provided that copies are offered to the public in reasonable quantity;
- (i) **right to authorise or prohibit**, with respect to copyright and related rights.

Each Party shall provide⁸ to authors, performers and producers of phonograms⁹ the exclusive right to authorise or prohibit all reproduction of their works, performances or phonograms in any manner or form, including in electronic form.

Article 11.36: Right of Communication to the Public

Without prejudice to Article 11 (1)(ii), Article 11bis (1)(i) and (ii), Article 11ter (1)(ii), Article 14 (1)(ii), and Article 14bis (1) of the Berne Convention, each Party shall provide to authors the exclusive right to authorise or prohibit the communication to the public of their works, by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.¹⁰

Article 11.37: Right of Distribution

Each Party shall provide to authors, performers and producers of phonograms the exclusive right to authorise or prohibit the making available to the public of the original and copies¹¹ of their works, performances and phonograms through sale or other transfer of ownership.

Article 11.38: Related Rights

1. Each Party shall accord the rights provided for in this Chapter with respect to performers and producers of phonograms: to the performers and producers of phonograms that are nationals¹² of another Party; and to performances or phonograms first published or first fixed¹³ in the territory

⁸ For greater certainty, the Parties understand that it is a matter for each Party's law to prescribe that works, performances or phonograms in general or any specified categories of works, performances and phonograms are not protected by copyright or related rights unless the work, performance or phonogram has been fixed in some material form.

⁹ References to "authors, performers, and producers of phonograms" refer also to any of their successors in interest.

¹⁰ The Parties understand that the mere provision of physical facilities for enabling or making a communication does not in itself amount to communication within the meaning of this Chapter or the Berne Convention. The Parties further understand that nothing in this Article precludes a Party from applying Article 11bis (2) of the Berne Convention.

¹¹ The expressions "copies" and "original and copies", that are subject to the right of distribution in this Article, refer exclusively to fixed copies that can be put into circulation as tangible objects.

¹² For the purposes of determining criteria for eligibility under this Article, with respect to performers, a Party may treat "nationals" as those who would meet the criteria for eligibility under Article 3 of the WPPT.

¹³ For the purposes of this Article, fixation means the finalisation of the master tape or its equivalent.

of another Party.¹⁴ A performance or phonogram shall be considered first published in the territory of a Party if it is published in the territory of that Party within 30 days of its original publication.

2. Each Party shall provide to performers the exclusive right to authorise or prohibit:
 - (a) the broadcasting and communication to the public of their unfixed performances, unless the performance is already a broadcast performance; and
 - (b) the fixation of their unfixed performances.
3.
 - (a) Each Party shall provide to performers and producers of phonograms the exclusive right to authorise or prohibit the broadcasting or any communication to the public of their performances or phonograms, by wire or wireless means,^{15, 16} and the making available to the public of those performances or phonograms in such a way that members of the public may access them from a place and at a time individually chosen by them.
 - (b) Notwithstanding subparagraph (a) and Article 11.40, the application of the right referred to in subparagraph (a) to analogue transmissions and non-interactive free over-the-air broadcasts, and exceptions or limitations to this right for those activities, is a matter of each Party's law.¹⁷

Article 11.39: Term of Protection for Copyright and Related Rights

¹⁴ For greater certainty, in this paragraph with respect to performances or phonograms first published or first fixed in the territory of a Party, a Party may apply the criterion of publication, or alternatively, the criterion of fixation, or both. For greater certainty, in accordance with Article 11.7, each Party shall accord to performances and phonograms first published or first fixed in the territory of another Party treatment no less favourable than it accords to performances or phonograms first published or first fixed in its own territory.

¹⁵ With respect to broadcasting and communication to the public, a Party may satisfy the obligation by applying Article 15 (1) and Article 15 (4) of the WPPT and may also apply Article 15 (2) of the WPPT, provided that this is done in a manner consistent with that Party's obligations under Article 11.7.

¹⁶ For greater certainty, the obligation under this paragraph does not include broadcasting or communication to the public, by wire or wireless means, of the sounds or representations of sounds fixed in a phonogram that are incorporated in a cinematographic or other audio-visual work.

¹⁷ For the purposes of this subparagraph the Parties understand that a Party may provide for the retransmission of non-interactive, free over-the-air broadcasts, provided that these retransmissions are lawfully permitted by that Party's government communications authority; any entity engaging in these retransmissions complies with the relevant rules, orders or regulations of that authority; and these retransmissions do not include those delivered and accessed over the Internet. For greater certainty this footnote does not limit a Party's ability to avail itself of this subparagraph.

²⁰ For greater certainty, for the purposes of subparagraph (b), if a Party's law provides for the calculation of term from fixation rather than from the first authorised publication, that Party may continue to calculate the term from fixation.

²¹ In case the author of such works has been known or specified or has disclosed his identity, the protection will be for the lifetime of the author and 50 years thereafter commencing as of the beginning of the calendar year subsequent to the author's death.

Each Party shall endeavour to achieve an appropriate balance in its copyright and related rights system, among other things by means of limitations or exceptions that are consistent with Article 11.40, including those for the digital environment, giving due consideration to legitimate purposes such as, but not limited to: criticism; comment; news reporting; teaching, scholarship, research, and other similar purposes; and facilitating access to published works for persons who are blind, visually impaired or otherwise print disabled.^{22, 23}

Article 11.43: Obligations concerning Protection of Technological Measures and Rights Management Information

1. Each Party shall provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that are used by authors, performers or producers of phonograms in connection with the exercise of their rights as provided under Article 11.35, Article 11.36, Article 11.37 and Article 11.38, that restrict acts, in respect of their works, performances or phonograms, which are not authorised by the authors, performers or producers of phonograms concerned or permitted by law.

These procedures shall be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse.

Article 11.46: Border Measures

1. Each Party shall, in conformity with its domestic law and regulations and the provisions of Part III, Section 4 of the TRIPS Agreement adopt or maintain procedures to enable a right holder, who has valid grounds for suspecting that the importations of counterfeit trademark or pirated copyright goods may take place, to lodge an application in writing with the competent authorities, in the Party in which the border measure procedures are applied, for the suspension by that Party's customs authorities of the release into free circulation of such goods.

2. A Party may enable such an application to be made in respect of goods which involve other infringements of intellectual property rights, provided that the requirements of Part III Section 4 of the TRIPS Agreement are met. A Party may also provide for corresponding procedures concerning the suspension by the customs authorities of the release of infringing goods destined for exportation from their territory as per its domestic laws and regulation.

The procuring entity shall not exclude the supplier from consideration in respect of the procurement unless the procuring entity is not able to complete the examination of the request within the time period allowed for the submission of tenders.

Information on Procuring Entity Decisions

8. A procuring entity or other entity of a Party shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion in a multi-use list of the decision with respect to the request or application.

9. If a procuring entity or other entity of a Party rejects a supplier's request for participation or application for inclusion in a multi-use list, ceases to recognise a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and on request of the supplier, promptly provide the supplier with a written explanation of the reason for its decision.

Article 14.10: Limited Tendering

1. Subject to paragraph 2, a procuring entity may use limited tendering.
2. If a procuring entity uses limited tendering, it may choose, according to the nature of the procurement, not to apply Article 14.7, Article 14.8, Article 14.9, Article 14.11, Article 14.12, Article 14.13, Article 14.14, or Article 14.15. A procuring entity may use limited tendering taking into consideration the following circumstances:
 - (a) if, in response to a prior notice, invitation to participate, or invitation to tender:
 - (i) no tenders were submitted or no suppliers requested participation;
 - (ii) no tenders were submitted that conform to the essential requirements in the tender documentation;
 - (iii) no suppliers satisfied the conditions for participation; or
 - (iv) the tenders submitted were collusive, provided that the procuring entity does not substantially modify the essential requirements set out in the notices or tender documentation;
 - (b) if the good or service can be supplied only by a particular supplier and no reasonable alternative or substitute good or service exists for any of the following reasons:
 - (i) the requirement is for a work of art;
 - (ii) the protection of patents, copyrights, or other exclusive rights; or
 - (iii) due to an absence of competition for technical reasons;
 - (c) for additional deliveries by the original supplier or its authorised agents, of goods or services that were not included in the initial procurement if a change of supplier for such additional goods or services:
 - (i) cannot be made for technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement, or due to conditions under original supplier warranties; and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
 - (d) for a good purchased on a commodity market or exchange;

- (e) if a procuring entity procures a prototype or a first good or service that is intended for limited trial or that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. Original development of a prototype or a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the prototype or the first good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs. Subsequent procurements of these newly developed goods or services, however, shall be subject to this Chapter;
- (f) if additional services that were not included in the initial contract but that were within the objectives of the original tender documentation have, due to unforeseeable circumstances, become necessary to complete the construction services described therein. However, the total value of contracts awarded for additional services may not exceed 50 per cent of the value of the initial contract;
- (g) for new services consisting of the repetition of similar services which conform to a basic project for which an initial contract was awarded and for which the entity has indicated in the notice of intended procurement concerning the initial service, that limited tendering procedures might be used in awarding contracts for such new services;
- (h) for purchases made under exceptionally advantageous conditions that only arise in the very short term, such as from unusual disposals, liquidation, bankruptcy, or receivership, but not for routine purchases from regular suppliers;
- (i) if a contract is awarded to the winner of a design contest, provided that:
 - (i) the contest has been organised in a manner that is consistent with this Chapter; and
 - (ii) the contest is judged by an independent jury with a view to award a design contract to the winner; or
- (j) in so far as is strictly necessary if, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the good or service could not be obtained in time by means of open or selective tendering.

3. For each contract awarded in accordance with paragraph 2, a procuring entity shall prepare a report in writing, or maintain a record, that includes the name of the procuring entity, the value and kind of good or service procured, and a statement that indicates the circumstances and conditions described in paragraph 2 that justified the use of limited tendering.

Article 14.11: Negotiations

1. A Party may provide for its procuring entities to conduct negotiations in the context of procurement if:
 - (a) the procuring entity has indicated its intent to conduct negotiations in the notice of intended procurement required under Article 14.7;
 - (b) it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation;
 - (c) all bids exceed the allocated prices provided in the notices of intended procurement.
2. A procuring entity shall:
 - (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and
 - (b) if negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

Article 14.12: Technical Specifications

1. A procuring entity shall make best efforts to not prepare, adopt, or apply any technical specification or prescribe any conformity assessment procedure with the purpose or effect of creating an unnecessary obstacle to trade between the Parties.
2. In prescribing the technical specifications for the good or service being procured, a procuring entity shall, if appropriate:
 - (a) set out the technical specifications in terms of performance and functional requirements, rather than design or descriptive characteristics; and
 - (b) base the technical specifications on international standards, if these exist; otherwise, on national technical regulations, recognised national standards or building codes.
3. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer, or

supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in these cases, the procuring entity includes words such as "or equivalent" in the tender documentation.

4. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

5. For greater certainty, a procuring entity may conduct market research in developing specifications for a particular procurement.

6. For greater certainty, this Article is not intended to preclude a procuring entity from preparing, adopting, or applying technical specifications to promote the conservation of natural resources or the protection of the environment.

7. For greater certainty, this Chapter is not intended to preclude a Party, or its procuring entities, from preparing, adopting, or applying technical specifications required to protect sensitive government information, including specifications that may affect or limit the storage, hosting, or processing of such information outside the territory of the Party.

Article 14.13: Tender Documentation

1. A procuring entity shall promptly make available or provide on request to any interested supplier tender documentation that includes all information necessary to permit the supplier to prepare and submit a responsive tender.

2. Unless already provided in the notice of intended procurement, that tender documentation shall include a complete description of:

- (a) the procurement, including the nature, scope and, if known, the quantity of the good or service to be procured or, if the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specifications, conformity certification, plans, drawings, or instructional materials;
- (b) any conditions for participation, including any financial guarantees, information, and documents that suppliers are required to submit;
- (c) all criteria to be considered in the awarding of the contract and the relative importance of those criteria;
- (d) if there will be a public opening of tenders, the date, time, and place for the opening;

- (e) if the procuring entity will hold an electronic auction, the rules, including identification of the elements of the tender related to the evaluation criteria on which the auction will be conducted;
 - (f) any other terms or conditions relevant to the evaluation of tender; and
 - (g) any date for delivery of a good or supply of a service.
3. To the extent possible an entity should make relevant tender documentation publicly available through electronic means or a computer-based telecommunications network openly accessible to all suppliers.
4. In establishing any date for the delivery of a good or the supply of a service being procured, a procuring entity shall take into account factors such as the complexity of the procurement.
5. A procuring entity shall promptly reply to any reasonable request for relevant information by an interested or participating supplier, provided that the information does not give that supplier an advantage over other suppliers.

Modifications

6. If, prior to the award of a contract, a procuring entity modifies the evaluation criteria or requirements set out in a notice of intended procurement or tender documentation provided to a participating supplier, or amends, or re-issues a notice or tender documentation, it shall publish or provide those modifications, or the amended or re-issued notice or tender documentation:
- (a) to all suppliers that are participating in the procurement at the time of the modification, amendment, or re-issuance, if those suppliers are known to the procuring entity, and in all other cases, in the same manner as the original information was made available; and
 - (b) in adequate time to allow those suppliers to modify and re-submit their initial tender, if appropriate.

Article 14.14: Time Periods

General

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for a supplier to obtain the tender documentation and to prepare and submit a request for participation and a responsive tender, taking into account factors such as:

- (a) the nature and complexity of the procurement; and
- (b) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points if electronic means are not used.

Deadlines

2. A procuring entity that uses selective tendering shall establish the final date for the submission of a request for participation based on laws and regulations of both Parties from the date of publication of the notice of intended procurement. If a state of urgency duly substantiated by the procuring entity renders this time period impracticable, the time period may be based on laws and regulations of both Parties.

3. Except as provided in paragraph 4, a procuring entity shall establish the final date for the submission of tenders based on laws and regulations of both Parties from the date on which:

- (a) in the case of open tendering, the notice of intended procurement is published; or
- (b) in the case of selective tendering, the procuring entity notifies the suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

4. A procuring entity may reduce the time period for tendering set out in paragraph 3 based on laws and regulations of both Parties for each of the following circumstances:

- (a) the notice of intended procurement is published by electronic means;
- (b) the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and
- (c) the procuring entity accepts tenders by electronic means;
- (d) the procuring entity has published a notice of planned procurement under Article 14.7 at least 40 days and no more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:
 - (i) a description of the procurement;
 - (ii) the approximate deadlines for the submission of tenders or requests for participation;
 - (iii) the address from which documents relating to the procurement may be obtained; and
 - (iv) as much of the information that is required for the notice of intended procurement;

M.4.

[Signature]

(e) a state of urgency duly substantiated by the procuring entity renders impracticable the time period for tendering set out in paragraph 3; or

(f) the procuring entity procures commercial goods or services.

5. The use of paragraph 4, shall in no case result in the reduction of the time periods for tendering set out in paragraph 3 based on laws and regulations of both Parties.

6. A procuring entity shall require all interested or participating suppliers to submit requests for participation or tenders in accordance with a common deadline. These time periods, and any extension of these time periods, shall be the same for all interested or participating suppliers.

Article 14.15: Treatment of Tenders and Awarding of Contracts

Treatment of Tenders

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process and the confidentiality of tenders.

2. If the tender of a supplier is received after the time specified for receiving tenders, the procuring entity shall not penalise that supplier if the delay is due solely to the mishandling on the part of the procuring entity.

3. If a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notice and tender documentation and be submitted by a supplier who satisfies the conditions for participation.

5. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the procuring entity has determined to be fully capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notice and tender documentation, submits:

(a) the most advantageous tender; or

(b) if price is the sole criterion, the lowest price.

6. Consistent with the terms of this Chapter, a procuring entity may require a supplier to comply with general terms and conditions pursuant to the terms of the contract.

7. If a procuring entity received a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

8. A procuring entity shall not use options, cancel a procurement, or modify or terminate awarded contracts in order to avoid the obligations of this Chapter, unless if the procuring entity gives justifications.

Article 14.16: Transparency and Post-Award Information

Information Provided to Suppliers

1. A procuring entity shall promptly inform suppliers that have submitted a tender of the contract award decision. The procuring entity may do so in writing, or through the prompt publication of the notice in Article 14.7, provided that the notice includes the date of award. If a supplier has requested the information in writing, the procuring entity shall provide it in writing.

2. Subject to Article 14.17, a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the procuring entity did not select the unsuccessful supplier's tender or an explanation of the relative advantages of the successful supplier's tender.

Maintenance of Records

3. A procuring entity shall maintain the documentation, records and reports relating to tendering procedures and contract awards for the covered procurement, including the records and reports provided for in Article 14.10.

Article 14.17: Disclosure of Information

Provision of Information to the Parties

1. On request of the other Party, a Party shall provide promptly information sufficient to demonstrate whether a procurement was conducted fairly, impartially and in accordance with this Chapter.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not, except to the extent required by law or with the written authorisation of the supplier that provided the information, disclose information that would prejudice legitimate commercial interests of a particular supplier or that might prejudice fair competition between suppliers.

3. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities, and review bodies, to disclose confidential information if such disclosure:

- (a) would impede law enforcement;
- (b) might prejudice fair competition between suppliers;
- (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
- (d) would otherwise be contrary to the public interest.

Article 14.18: Ensuring Integrity in Procurement Practices

Each Party shall ensure that criminal or administrative measures exist to address corruption in its government procurement. These measures may include procedures to render ineligible for participation in the Party's procurements, either indefinitely or for a stated period of time, suppliers that the Party has determined to have engaged in fraudulent or other illegal actions in relation to government procurement in the Party's territory. Each Party shall also ensure that it has in place policies and procedures to eliminate to the extent possible or manage any potential conflict of interest on the part of those engaged in or having influence over a procurement.

Article 14.19: Domestic Review

1. Each Party shall maintain, establish, or designate at least one impartial administrative or judicial authority (review authority) that is independent of its procuring entities to review, in a non-discriminatory, timely, transparent, and effective manner, a challenge or complaint by a supplier that there has been:

- (a) a breach of this Chapter; or

- (b) if the supplier does not have a right to directly challenge a breach of this Chapter under the law of a Party, a failure of a procuring entity to comply with the Party's measures implementing this Chapter,

arising in the context of a procurement, in which the supplier has, or had, an interest. The procedural rules for these complaints shall be in writing and made generally available.

2. In the event of a complaint by a supplier, arising in the context of the covered procurement in which the supplier has, or had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage, if appropriate, the procuring entity and the supplier to seek resolution of the complaint through consultations. The procuring entity shall accord impartial and timely consideration to the complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or to its right to seek corrective measures under the administrative or judicial review procedure. Each Party shall make information on its complaint mechanisms generally available.

3. If a body other than the review authority initially reviews a complaint, a Party shall ensure that the supplier may appeal the initial decision to the review authority that is independent of the procuring entity that is the subject of the complaint.

4. If the review authority has determined that there has been a breach or a failure as referred to in paragraph 1, a Party may limit compensation for the loss or damages suffered to either the costs reasonably incurred in the preparation of the tender or in bringing the complaint, or both.

5. Each Party shall ensure that, if the review authority is not a court, its review procedures are conducted in accordance with the following procedures:

- (a) a supplier shall be allowed sufficient time to prepare and submit a complaint in writing, based on laws and regulations of both Parties from the time when the basis of the complaint became known or reasonably should have become known to the supplier;
- (b) a procuring entity shall respond in writing to a supplier's complaint and provide all relevant documents to the review authority;
- (c) a supplier that initiates a complaint shall be provided an opportunity to reply to the procuring entity's response before the review authority takes a decision on the complaint; and
- (d) the review authority shall provide its decision on a supplier's complaint in a timely manner, in writing, with an explanation of the basis for the decision.

6. Each Party shall adopt or maintain procedures that provide for:

- (a) prompt interim measures, pending the resolution of a complaint, to preserve the supplier's opportunity to participate in the procurement and to ensure that the procuring entities of the Party comply with its measures implementing this Chapter; and
- (b) corrective action that may include compensation under paragraph 4.

The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether those measures should be applied. Just cause for not acting shall be provided in writing.

Article 14.20: Facilitation of Participation by SMEs

1. The Parties recognise the important contribution that SMEs can make to economic growth and employment and, accordingly, the importance of facilitating the participation of SMEs in government procurement.

2. To facilitate participation by SMEs in covered procurement, each Party shall, to the extent possible and where appropriate:

- (a) ensure that information on how to participate in government procurement is readily available;
- (b) endeavour to make all tender documentation available free of charge;
- (c) conduct procurement by electronic means, including through new information and communication technologies;
- (d) consider the size, design, and structure of the procurement, including subcontracting with SMEs; and

1. This Chapter shall not entail any financial obligations to the Parties.

2. Each Party shall be responsible for any financial expenses to fulfil its role in this Chapter.

Article 14.22: Language

To improve market access to each Party's procurement market, each Party shall, where practicable, use English in its publication of materials or information pursuant to Article 14.6.

Article 14.23: Review of the Chapter

1. The Parties shall initiate negotiations on their respective Annexes of Market Access referred to in this Chapter one year after the entry into force of this Agreement, and such negotiations shall not exceed six months.
2. The annexes shall be adopted by the Parties, enter into force, and shall constitute an integral part of this Agreement in accordance with Article 18.2 (Amendments), unless otherwise agreed by the Parties.

1. Except as otherwise provided in this Agreement and in paragraphs 2 and 3, this Chapter shall apply with respect to the settlement of any dispute between the Parties concerning the interpretation, or application of this Agreement (hereinafter referred to as “covered provisions”), wherever a Party considers that:

- (a) a measure of the other Party is inconsistent with its obligations under this Agreement; or
- (b) the other Party otherwise failed to carry out its obligations under this Agreement.

2. This Chapter shall not cover non-violation and other situation complaints of the type described in Article 26 of the DSU.

3. The Parties agree that neither Party shall have recourse to dispute settlement under this Chapter as provided for in this Agreement.

Article 15.3: Cooperation

The Parties shall endeavour to agree on the interpretation and application of this Agreement, and shall make every attempt through cooperation to arrive at a mutually satisfactory resolution of any matter that might affect its operation.

2. Any request, notification, written submission, or other document made in accordance with this Chapter shall be delivered to the other Party through its designated contact point.

Article 15.5: Request for Information

Before a request for consultations, good offices, conciliation or mediation is made pursuant to Article 15.6 or 15.7 respectively, a Party may request in writing any relevant information with respect to a measure of the other Party. The Party to which that request is made shall make all efforts to provide the requested information in a written response to be submitted no later than 20 days after the date of receipt of the request.

Article 15.6: Consultations

1. The Parties shall endeavour to resolve any dispute referred to in Article 15.2 by entering into consultations in good faith with the aim of reaching a mutually agreed solution.
2. A Party shall seek consultations by means of a written request delivered to the other Party identifying the reasons for the request, including the measure at issue and a description of its factual basis and the legal basis specifying the covered provisions that it considers applicable.
3. The Party to which the request for consultations is made shall reply to the request promptly, but no later than 10 days after the date of receipt of the request. Consultations shall be held within 30 days of the date of receipt of the request, unless the Parties agree otherwise. The consultations shall be deemed to be concluded within 30 days of the date of receipt of the request, unless the Parties agree otherwise.
4. Consultations on matters of urgency including those which concern perishable goods, shall be held within 15 days of the date of receipt of the request. The consultations shall be deemed to be concluded within those 15 days unless the Parties agree otherwise.
5. During consultations each Party shall provide sufficient information so as to allow a complete examination of the measure at issue including how that measure is affecting the operation and application of this Agreement.
6. Consultations, including all information disclosed and positions taken by the Parties during consultations, shall be confidential, and without prejudice to the rights of either Party in any further proceedings.

Consultations may be held in person or by any other means of communication agreed by the Parties. Unless the Parties agree otherwise, consultations, if held in person, shall take place in the territory of the Party to which the request is made.

7. If the Party to which the request is made does not respond to the request for consultations within 10 days of the date of its receipt, or if consultations are not held within the timeframes laid down in paragraph 3 or in paragraph 4 respectively, or if the Parties agree not to have consultations, or if consultations have been concluded and no mutually agreed solution has been reached, the Party that sought consultations may have recourse to Article 15.8.

Article 15.7: Good Offices, Conciliation or Mediation

1. The Parties may at any time agree to enter into procedures for good offices conciliation or mediation. They may begin at any time and be terminated by either Party at any time.

2. Proceedings involving good offices conciliation or mediation and the particular positions taken by the Parties in these proceedings, shall be confidential and without prejudice to the rights of either Party in any further proceedings under this Chapter or any other proceedings before a forum selected by the Parties.

3. If the Parties agree, procedures for good offices conciliation or mediation may continue while the panel procedures proceed.

Article 15.8: Establishment of a Panel

1. The complaining Party may request the establishment of a panel if:

- (a) the respondent Party does not reply to the request for consultations in accordance with the time frames referred to in Article 15.6; or
- (b) the consultations referred to in Article 15.6 are not held or fail to settle a dispute within 30 days or 15 days in relation to urgent matters including those which concern perishable goods after the date of the receipt of the request for consultations by the respondent Party.

2. The request for the establishment of a panel shall be made by means of a written request delivered to the other Party and shall identify the measure at issue and indicate the factual basis of the complaint and the legal basis specifying the relevant covered provisions in a manner sufficient to present how such measure is inconsistent with those provisions.

3. When a request for the establishment of the panel is made by the complaining Party in accordance with paragraph 1, a panel shall be established.

Article 15.9: Composition of a Panel

1. Each Party shall establish within one year after the date of entry into force of this Agreement an indicative roster of three individuals who are willing and able to serve as panellists, who may be nationals or have their permanent place of residence in its territory, and who shall not be employed by either Party, nor have dealt with the dispute in any capacity. Such roster shall remain in effect until the Party constitutes a new roster. The Parties may appoint a replacement where a roster individual is no longer available to serve.
2. For the position of Chairperson of the panel, the Parties shall establish within one year after the entry into force of the Agreement and maintain a roster of three individuals, who are not nationals of either Party, and who shall not have their usual place of residence in either Party, who are willing and able to serve as Chairperson of the panel. This roster list shall be appointed by consensus.
3. The Parties may have recourse to the rosters even if the rosters are not complete. Once established, the roster shall remain in effect until the Parties constitute a new roster. The Parties may appoint a replacement where a roster individual is no longer available to serve. The Parties may appoint a panellist not from the indicative list of rosters.
4. In establishing the roster, the Parties may take into consideration the indicative list of governmental and non-governmental panellists established by the WTO.
5. The Joint Committee will approve these rosters and shall endeavour to achieve consensus on their appointment. Members of the rosters may be reappointed. If a Party fails to designate its members to the roster, the Parties may still request the establishment of the panel.
6. The panel shall be composed of three panellists.
7. Within 20 days of the date of submission of the request for the establishment of a panel, each Party shall appoint a panellist from its roster referred to in paragraph 1 and the Parties shall consult in order to reach an agreement on the third panellist who shall serve as Chairperson from the roster referred to in paragraph 2 within 20 days from the date the second panellist has been appointed.
8. In the event that the Parties are unable to agree on the composition of the panel within the time frame laid down in paragraph 7, either Party may request the Joint Committee to select all three panellists by lot from the applicable list established under this Article, one among the members proposed by the complaining Party, one among the members proposed by the respondent Party and one among the members selected by the Parties to act as Chairperson.
9. The Chairperson of the Joint Committee shall select the panellists within five days of the request referred to in paragraph 8.

10. Should any of the rosters provided for in paragraph 1 and 2 not being established at the time a request is made pursuant to Article 15.8 or if one or both of the Parties did not appoint a panellist within the time set out in paragraph 7, the three panellists shall be drawn by lot from the individuals which have been formally proposed by one or both of the Parties.

11. In case that a Party raises a reasoned objection against a panellist regarding his or her compliance with the Code of Conduct for Panellists and Others Engaged in Dispute Settlement Proceedings under this Agreement established in Annex 15B (Code of Conduct for Panellists and Others Engaged in Dispute Settlement Proceedings under this Agreement) or his or her compliance with the qualifications of the panellist, the Parties may, within 20 days of the period within which the appointment should be made, remove that panellist or Chairperson and select a replacement in accordance with this Article.

12. If the Parties fail to agree that there exists proof of a violation of the Code of Conduct for Panellists and Others Engaged in Dispute Settlement Proceedings under this Agreement established in Annex 15B (Code of Conduct for Panellists and Others Engaged in Dispute Settlement Proceedings under this Agreement) by a panellist, either Party may request the Chairperson of the panel to consider and settle this matter. If the challenge is being raised against the Chairperson of the panel, the matter shall be considered by the other two panellists. If no agreement is reached between the two panellists, the Chairperson shall be removed. The decision adopted pursuant to this rule is definitive. The selection of the new panellist or Chairperson shall be done in accordance with this Article.

13. The date of composition of the panel shall be the date of which the Chairperson is appointed.

Article 15.10: Decision on Urgency

If a Party so requests, the panel shall give a preliminary ruling, within 15 days of its composition, determining whether the dispute concerns matters of urgency.

- (d) comply with the Code of Conduct for Panellists and Others Engaged in Dispute Settlement Proceedings under this Agreement established in Annex 15B (Code of Conduct for Panellists and Others Engaged in Dispute Settlement Proceedings under this Agreement);
 - (e) be chosen strictly on the basis of objectivity, reliability and sound judgment; and
 - (f) not have been involved in an alternative dispute settlement proceeding referred to in this Agreement regarding the same dispute.
2. The Chairperson shall also have experience in dispute settlement procedures.
3. Persons who provided good offices, conciliation or mediation to the Parties, pursuant to Article 15.7 in relation to the same or a substantially equivalent matter, shall not be eligible to be appointed as panellists in that matter.

Article 15.12: Replacement of Panellists

If any of the panellists of the original panel becomes unable to act, withdraws or needs to be replaced because that panellist does not comply with the requirements of Article 15.11, a successor panellist shall be appointed in the same manner as prescribed for the appointment of the original panellist under Article 15.9 and the work of the panel shall be suspended during the appointment of the replacement panellist.

Article 15.13: Functions of the Panel

Unless the parties otherwise agree, the panel:

- (a) shall make an objective assessment of the matter before it, including an objective assessment of the facts of the case and the applicability of and conformity of the measure at issue with the covered provisions;

- (c) should consult regularly with the Parties and provide adequate opportunities for the development of a mutually agreed solution.

15.4

Article 15.14: Terms of Reference

1. Unless the Parties otherwise agree within 15 days after the date of establishment of the panel, the terms of reference of the panel shall be:

“to examine, in the light of the relevant covered provisions of this Agreement cited by the Parties, the matter referred to in the request for the establishment of the panel, to make findings on the conformity of the measure at issue with the relevant covered provisions of this Agreement as well as recommendations, if any, on the means to resolve the dispute, and to deliver a report in accordance with Articles 15.18 and 15.19.”

Such request shall be notified simultaneously to the respondent Party and the Joint Committee.

The respondent Party shall, on request of the complaining Party, enter into consultations with a view to agreeing on mutually satisfactory compensation or any alternative arrangement.

2. If the Parties fail to reach a mutually satisfactory agreement within 30 days after the date of receipt of the request made in accordance with paragraph 1, the complaining Party may deliver a written notification to the respondent Party that it intends to suspend the application of concessions or other obligations under this Agreement.

- (b) be restricted to benefits accruing to the respondent Party under this Agreement.

5. In considering what concessions or other obligations to suspend in accordance with paragraph 2, the complaining Party shall apply the following principles:

- (b) the complaining Party may suspend concessions or other obligations in other sectors, if it considers that it is not practicable or effective to suspend concessions or other obligations in the same sector(s). The communication in which it notifies such a decision shall indicate the reasons on which it is based.

6. The suspension of concessions or other obligations or the mutually satisfactory agreement foreseen in the paragraph 1 shall be temporary and shall only apply until the inconsistency of the measure with the relevant covered provisions has been removed, or until the Parties have reached a mutually agreed solution pursuant to Article 15.28.

7. If the respondent Party considers that the suspension of concessions or other obligations does not comply with paragraphs 4 and 5, that Party may request in writing the original panel to examine the matter no later than 15 days after the date of receipt of the notification referred to in paragraph 2. That request shall be notified simultaneously to the complaining Party and to the Joint Committee. The original panel shall notify to the Parties and the Joint Committee its decision on the matter no later than 45 days of the receipt of the request from the respondent Party, or if the original panel cannot be established with its original members, from the date on which the last panellist of the newly established panel is appointed in conformity with Article 15.9. That request shall be notified simultaneously to the respondent Party and the Joint Committee. The decision of the panel shall be notified to the Parties and the Joint Committee no later than 30 days after the date of submission of the request. If the panel decides that the measure notified in accordance with paragraph 1 is consistent with the covered provisions, the suspension of concessions or other obligations, or the application of the compensation, as the case may be, shall be terminated no later than 15 days after the date of the decision. If the panel determines that the notified measure achieves only partial compliance with
